ROOTED IN ROCKPORT-FULTON

A Home-Grown Harbor Pilot

Matthew Lynch is a Rockport native and a 2003 graduate of Rockport-Fulton High School. He returned home in 2015 to join the Aransas-Corpus Christi Pilots and has raised four children here with his wife.

His family's roots run deep on both sides — through the Picton, Rouquette and Lynch families. His grandfather Harold Hynes Picton served as an Aransas County Commissioner, and his grandfather Frank Lynch founded Lynch Appraisal Services. Today, as a harbor pilot guiding vessels through the Corpus Christi Ship Channel, Matthew knows our waterways firsthand.

WHY I'M RUNNING

My Promises to Rockport-Fulton

"I'm running because I believe we can do better — and because my experience can be put to work for the community that raised me."

Better Cooperation

The Navigation District holds some of our community's most important land and marine assets, meant to benefit the citizens of Aransas County. If given the privilege to serve, it is my promise to improve the relationship between the District and the City of Rockport so both work with a united mission for our County.

A Harbor We Can Be Proud Of

Our harbor is the front porch of Rockport-Fulton. If I earn your vote, it would be my honor to make it cleaner, safer, and more beautiful — a well-maintained public asset that reflects the pride of the community it serves.

Transparency & Accountability

Public trust is earned in the open. This is your District, funded by your tax dollars. If given the privilege to serve, I will bring real transparency: clear information, honest answers, and full accountability for how public money and property are managed.

Responsible Development

Our character is our greatest inheritance and our waterfront our greatest opportunity. It would be my honor to champion development that grows our economy while protecting the small-town character we love — for a lasting public benefit.

"Rockport-Fulton isn't simply where I live. It's home."
